Subject: Document review request for January POPRC meeting

Hi Alison,

I was wondering if OPPT could help with technical review of two documents in particular for the POPRC meeting taking place online the week of January 11. One is the risk profile for Dechlorane Plus (file DP Risk Profile UNEP-POPS-POPRC.16-2) and one is a listing proposal for UV-328, a UV absorber (file UV-328 Proposal UNEP-POPS-POPRC.16-4). I have attached the two documents, along with the Annex D screening criteria for the proposal.

Ex. 5 Deliberative Process (DP)

I have attached our position paper from the last POPRC meeting (I had a SAICM meeting at the same time so I was not able to attend – OPP represented) and the proposal as a refresher.

Ex. 5 Deliberative Process (DP)

My goal is to complete the draft position papers by the end of November/early December so they can be ready for interagency review in mid-December.

Thanks, Laura
